

Create a Data Product in Witboost

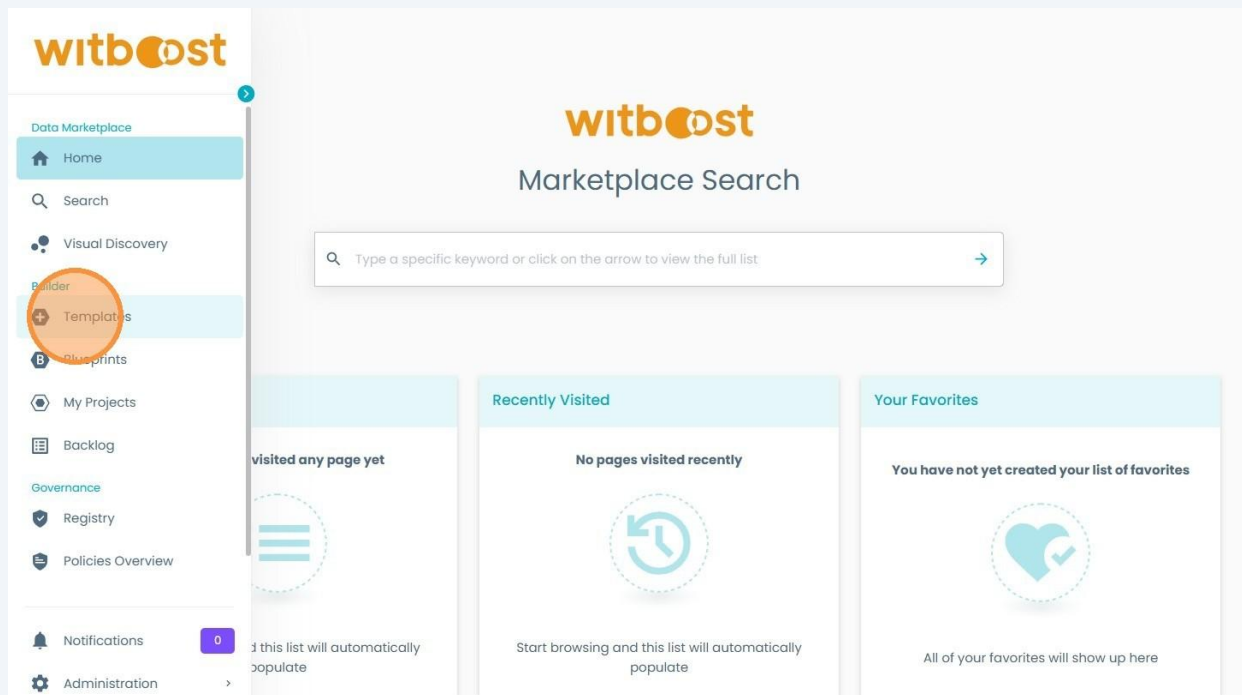

Learn how to create a new data product using the Witboost platform. This guide walks you through defining the product name, identifier, contact information, components, scope, business value, consumers, and dependencies.

1

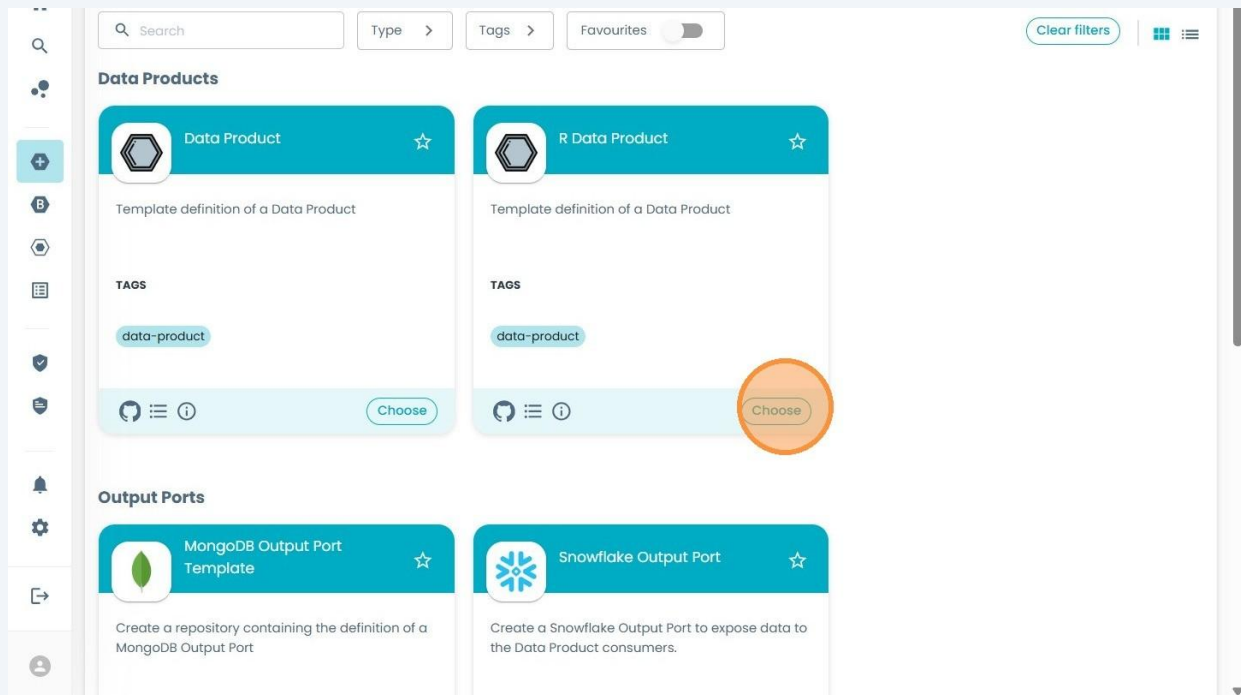

Navigate to <https://witboostdemo.systemation-tools.nl/marketplace/home?taxonomy=taxonomy%3Adefault%2Fdata-mesh-taxonomy>

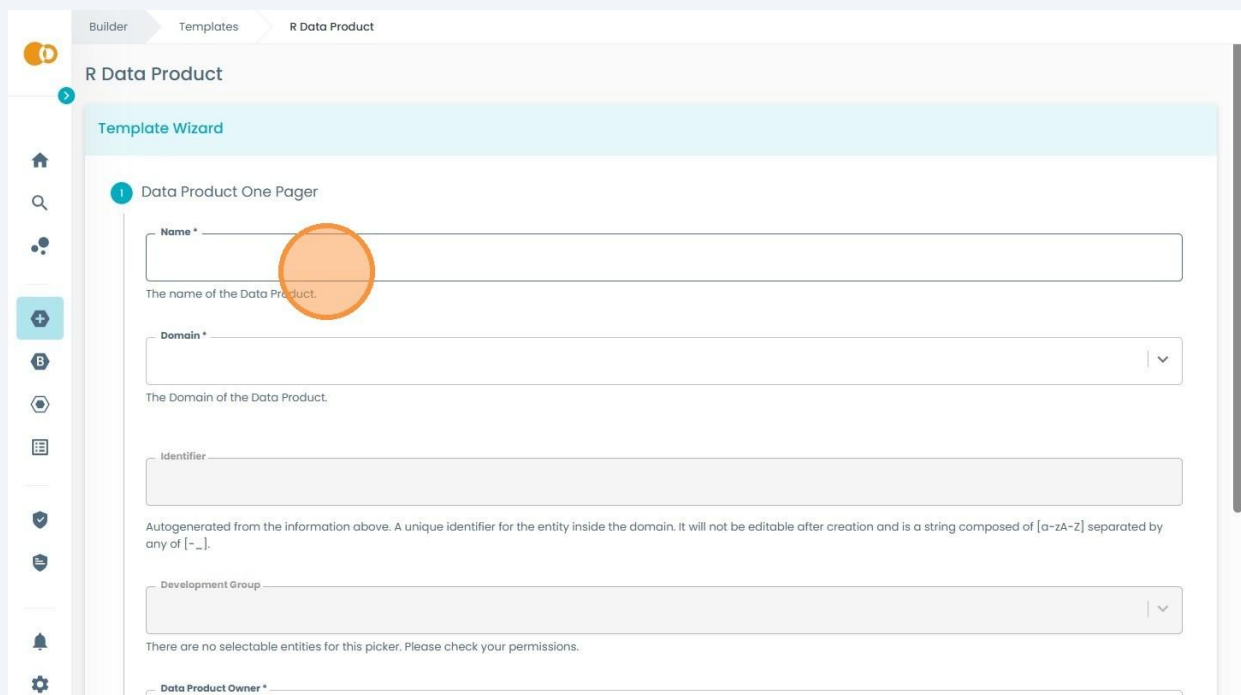

2 Click "Templates"

3 Click "Choose"

4 Click the "Name *" field.

5 Type "Rabobank POC Data ProductTab"

6 Click this icon.

The screenshot shows the 'R Data Product' Template Wizard interface. The left sidebar contains navigation icons, with the 'Builder' icon highlighted. The main content area is titled 'R Data Product' and 'Template Wizard'. It displays a form for creating a 'Data Product One Pager'. The form includes the following fields:

- Name ***: A text input field containing 'Rabobank POC Data Product'. Below it, a description reads: 'The name of the Data Product.'
- Domain ***: A text input field that is currently empty. This field is highlighted with an orange circle. Below it, a description reads: 'The Domain of the Data Product.'
- Identifier**: A text input field that is currently empty. Below it, a description reads: 'Autogenerated from the information above. A unique identifier for the entity inside the domain. It will not be editable after creation and is a string composed of [a-zA-Z] separated by any of [-_].'
- Development Group**: A dropdown menu that is currently empty. Below it, a message reads: 'There are no selectable entities for this picker. Please check your permissions.'
- Data Product Owner ***: A text input field that is currently empty.

7

Click "Finance"

R Data Product

1 Data Product One Pager

Name *

Rabobank POC Data Product

The name of the Data Product.

Domain *

Finance

Marketing

Organization

Autogenerated from the information above. A unique identifier for the entity inside the domain. It will not be editable after creation and is a string composed of [a-zA-Z] separated by any of [-_].

Development Group

There are no selectable entities for this picker. Please check your permissions.

Data Product Owner *

Use who owns the Data Product.

8 Click the "Identifier" field.

The screenshot shows a web form titled "Data Product One Pager". On the left is a vertical sidebar with icons for home, search, notifications, and various settings. The form contains several input fields:

- Name ***: A text box containing "Rabobank POC Data Product". Below it is the label "The name of the Data Product."
- Domain ***: A text box containing "Finance" with a dropdown arrow on the right. Below it is the label "The Domain of the Data Product."
- Identifier**: A text box containing "finance.rabobank-poc-data-product.0". This field is highlighted with an orange circle. Below it is a descriptive paragraph: "Autogenerated from the information above. A unique identifier for the entity inside the domain. It will not be editable after creation and is a string composed of [a-zA-Z] separated by any of [-_]."
- Development Group**: A dropdown menu that is currently empty. Below it is the message: "There are no selectable entities for this picker. Please check your permissions."
- Data Product Owner ***: A dropdown menu. Below it is the label "User who owns the Data Product."
- Contact email ***: An empty text box.

9

Click the "Development Group" field.

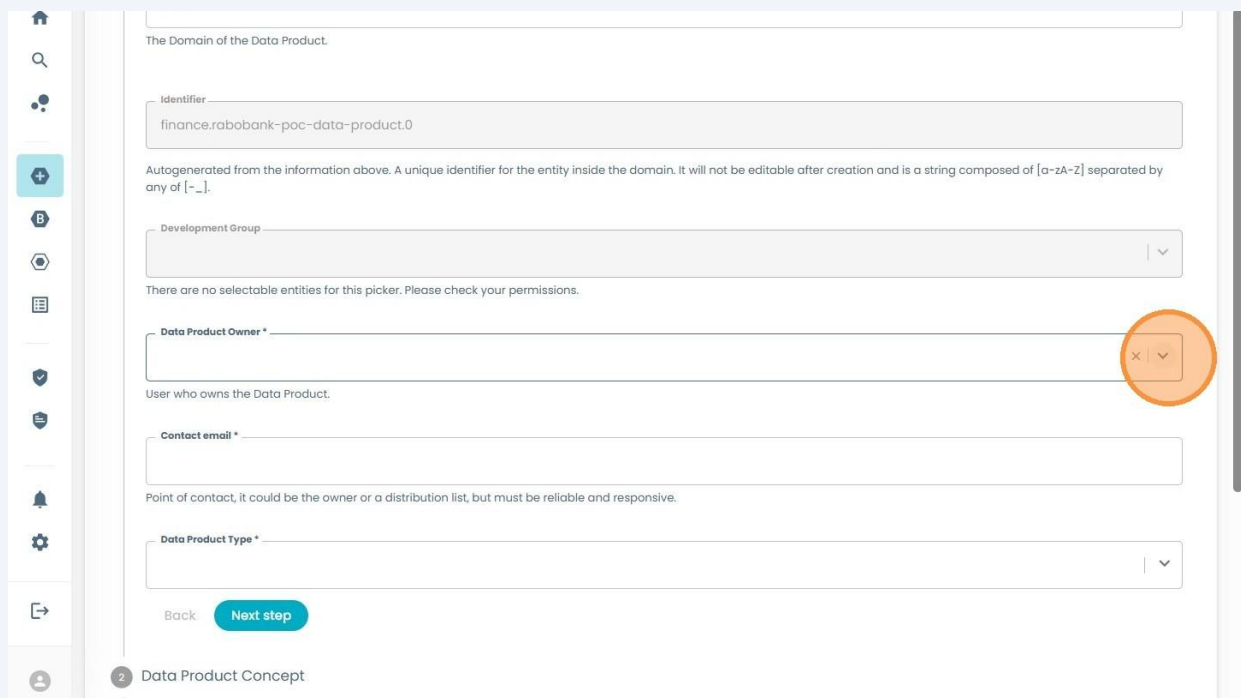

The screenshot shows a web form titled "Data Product One Pager". On the left is a vertical sidebar with various icons. The form contains several fields: "Name *" with the value "Rabobank POC Data Product", "Domain *" with a dropdown menu showing "Finance", "Identifier" with the value "finance.rabobank-poc-data-product.0", "Development Group" (highlighted with an orange circle), "Data Product Owner *" with a dropdown menu, and "Contact email *". Below the "Development Group" field, there is a message: "There are no selectable entities for this picker. Please check your permissions." The form also includes descriptive text for each field and a footer note: "Point of contact: it could be the owner or a distribution list, but must be reliable and responsive."

10

Click this icon.

This screenshot is identical to the one above, showing the "Data Product One Pager" form. In this version, an orange circle highlights the dropdown arrow icon on the right side of the "Development Group" field, which is the icon mentioned in the instruction.

11 Click this icon.

TODO

What new characteristics does this Data Product create? *

19 Type "DPAT framework"

20 Click the "What is the scope of Data Product? *" field.

The screenshot shows a 'template wizard' interface with a sidebar on the left containing icons for home, search, and various settings. The main area has a progress bar with two steps: 'Data Product One Pager' (completed) and 'Data Product Concept' (current step). Below the progress bar, there are three text input fields. The first field is labeled 'Which are the main Data Product components? *' and contains the text 'DPAT framework'. The second field is labeled 'What is the scope of Data Product? *' and is currently empty; an orange circle highlights this field. The third field is labeled 'What new characteristics does this Data Product create? *' and is also empty. At the bottom of the form, there is a wide image of a tall, ornate building (likely a cathedral) against a blue sky with clouds.

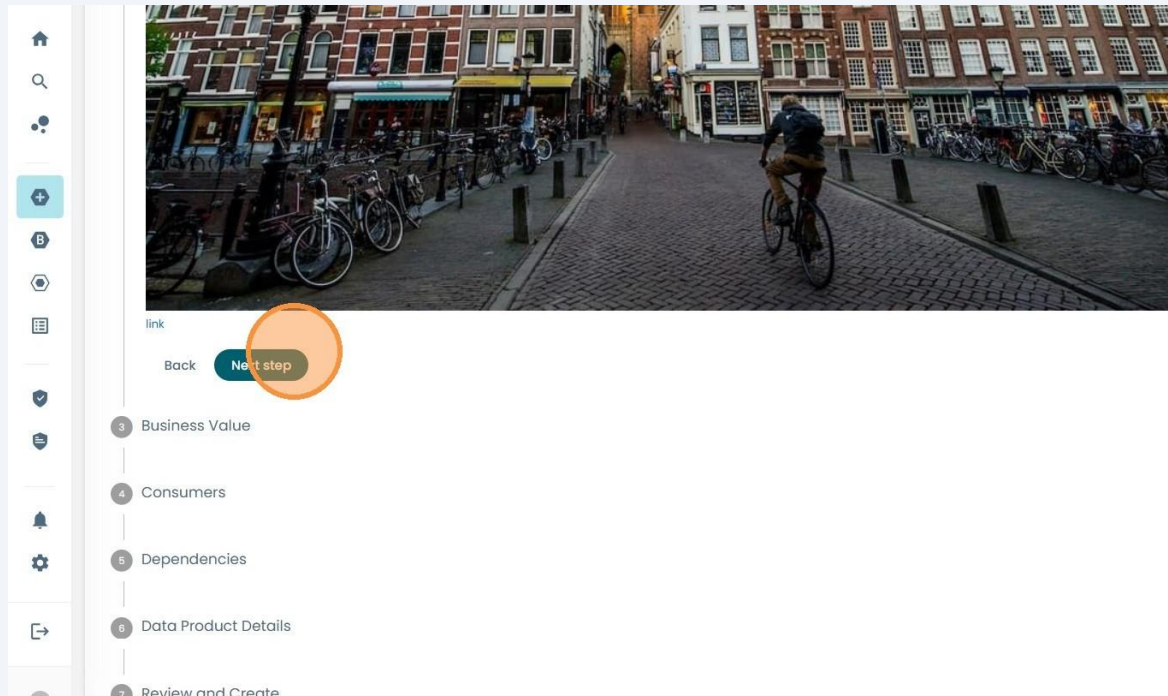

21 Type "generate python source code for interfaces deployed automatically by CI/CD"

22 Click the "What new characteristics does this Data Product create? *" field.

The screenshot shows a 'Builder' interface with tabs for 'Builder', 'Templates', and 'R Data Product'. The 'R Data Product' tab is active. The main area contains three text input fields. The first field is labeled 'What is the scope of Data Product? *' and contains the text 'generate python source code for interfaces deployed automatically by CI/CD'. The second field is labeled 'What new characteristics does this Data Product create? *' and is currently empty; an orange circle highlights this field. The third field is also empty. At the bottom of the form, there is a wide image of a tall, ornate building (likely a cathedral) against a blue sky with clouds.

23 Type "To be done."

24 Click "Next step"

25 Click the "Which business value is this Data Product generating? *" field.

A screenshot of a web application interface showing a form titled 'R Data Product'. The form is part of a 'Template Wizard' and has several sections. The first section, 'Data Product One Pager', has a checked checkbox. The second section, 'Data Product Concept', also has a checked checkbox. The third section, 'Business Value', is the current active section. It contains two text input fields. The first field is labeled 'Which business value is this Data Product generating? *' and is highlighted with an orange circle. The second field is labeled 'Which use cases is it serving? *'. Below the second field is a 'TODO' label. At the bottom of the form, there are 'Back' and 'Next step' buttons. The 'Next step' button is highlighted with an orange circle. The sidebar on the left is visible, showing various icons.

26 Type "A lot"

27 Click the "Which use cases is it serving? *" field.

The screenshot shows a web application interface for configuring a data product. On the left is a vertical sidebar with icons for search, settings, and other functions. The main content area displays a form with several sections:

- Data Product One Pager**: A section with a green checkmark icon.
- Data Product Concept**: A section with a green checkmark icon.
- Business Value**: A section with a blue circle icon containing the number 3. It contains a text input field with the label "Which business value is this Data Product generating? *" and the text "A lot" entered. Below the field is a "TODO" label.
- Which use cases is it serving? ***: A text input field with an orange circle icon. Below the field is a "TODO" label.
- Navigation**: "Back" and "Next step" buttons.
- Consumers**: A section with a blue circle icon containing the number 4.
- Dependencies**: A section with a blue circle icon containing the number 5.

7 Review and Create

34 Click the "Who are the current consumers?" field.

The screenshot shows the 'Template Wizard' interface. On the left is a sidebar with icons for home, search, and various settings. The main area displays a progress bar with steps: 1. Data Product One Pager, 2. Data Product Concept, 3. Business Value, 4. Consumers (current step), 5. Dependencies, and 6. Data Product Details. The 'Consumers' step contains two text input fields. The first field is labeled 'Who are the current consumers?' and is highlighted with an orange circle. Below it is a smaller text input field labeled 'Who are (potential) target consumers?'. At the bottom of the step are 'Back' and 'Next step' buttons.

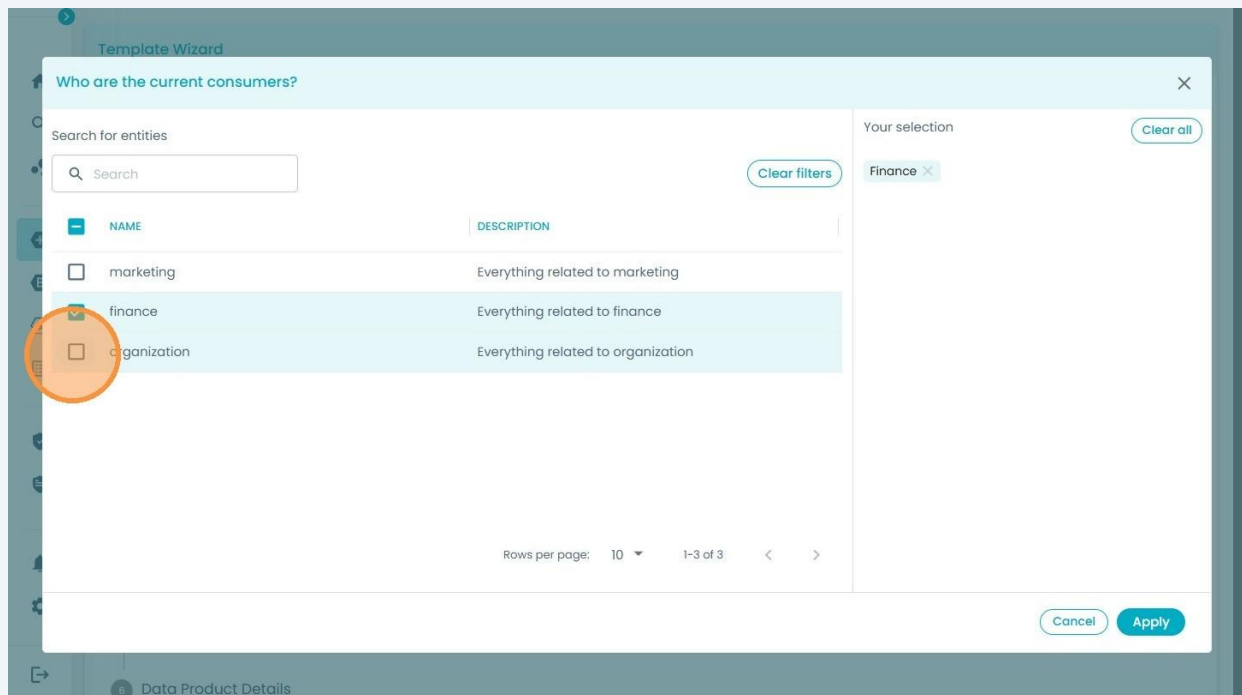

35 Click this checkbox.

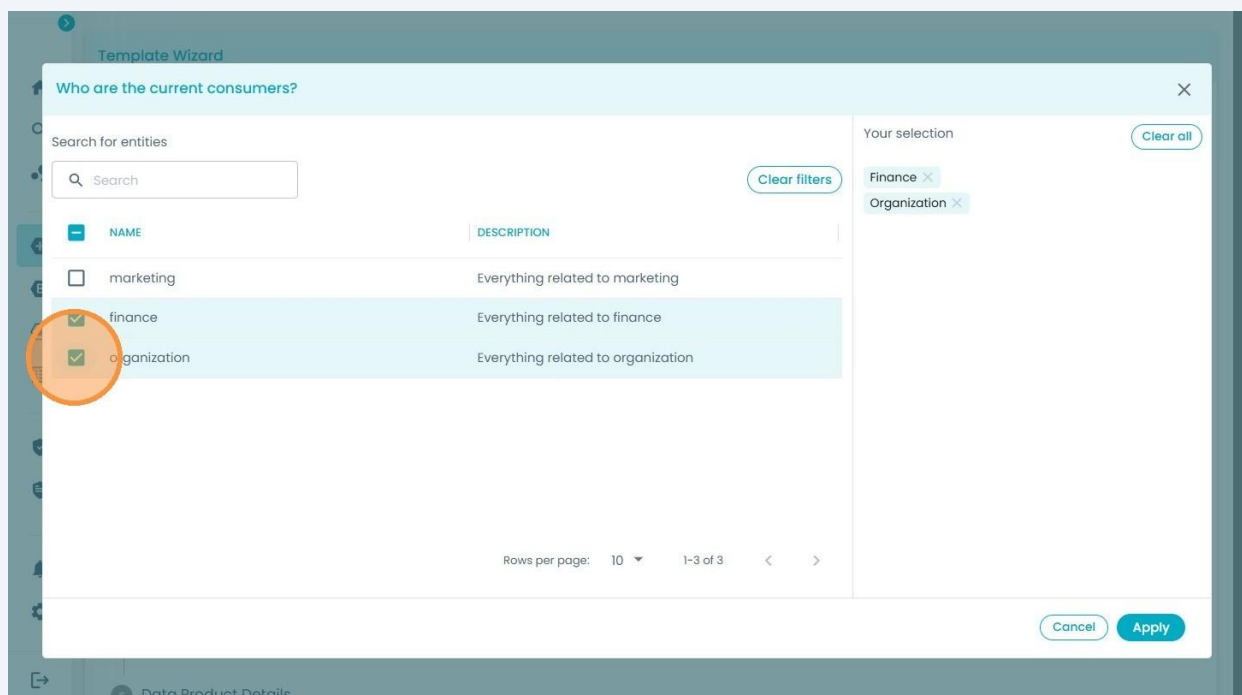

The screenshot shows a dialog box titled 'Who are the current consumers?'. It has a search bar at the top left labeled 'Search for entities'. Below the search bar is a table with two columns: 'NAME' and 'DESCRIPTION'. The table contains three rows: 'marketing', 'finance', and 'organization'. The 'marketing' row is highlighted with an orange circle. To the right of the table is a section titled 'Your selection' with a 'Clear all' button. Below this section is a message: 'You haven't made any selection yet.' with a crossed-out list icon and the text 'Select the entities you need from the list on the left.' At the bottom right are 'Cancel' and 'Apply' buttons.

NAME	DESCRIPTION
